

Are you tired of replacing toner and buying paper for faxes? Do you want to protect your data, reduce your eco-footprint, and lower faxing costs? BullsEye's Secure Cloud Fax, powered by eFax Corporate[®], lets you send and receive faxes virtually anywhere and is a simple, reliable fax solution with the added benefit of cost savings.

With Secure Cloud Fax, your faxes are sent straight to your email, keeping them private, confidential and secure. Choose from a multitude of cloud-based plan options that are scalable and flexible to meet your exact needs. Leverage BullsEye's wholesale relationship with eFax Corporate to either keep your existing fax numbers or set up new ones.
