ANXeBusiness Corp. Adds BullsEye Telecom to its Growing Reseller Program

BullsEye to expand vertical offering of PositivePro managed VPN service

March 11, 2009 [Southfield, MI] - ANXeBusiness Corp., a leading provider of networking and security managed services, today announced that it has signed BullsEye Telecom, Inc. to its expanding Value-Added Resellers (VAR) program. Headquartered in Oak Park, Michigan, BullsEye is an expert in servicing both multi and single location customers with a wide-range of effective, customized communications solutions.

BullsEye Telecom will be selling ANX's secure remote access products, specifically ANX PositivePro, in conjunction with BullsEye's voice and data products. With support for hundreds of security applications, including Symantec, McAfee, Avira and Microsoft, PositivePRO is a complete managed VPN service that provides businesses of all sizes with everything required for employees to securely connect to a company LAN or intranet from a remote location.

“Our sales strategy has evolved with the growth of ANX and our product portfolio. As a partner, BullsEye brings a solid sales track record, a highly experience management team and innovative communications products and services,” said Jim Michels, Vice President, Marketing for ANXeBusiness. “With the addition of BullsEye to our VAR program, we continue to see consistent growth in the talent pool within our channel program which includes resellers and agents.” Providing a portfolio of high-demand Managed Network Service, Transaction Delivery Service, and Product Lifecycle Management (PLM) products, ANX's partner program will address new vertical industries while expanding the company's geographical sales for PositivePro. With a strong history of sales into the automotive original equipment and aftermarket, healthcare and financial industries, new verticals will be supported in the partner

program as VARs and agents broaden the market acceptance of PositivePro.

“Adding an award-winning, managed VPN solution like PositivePro not only complements our innovative business solutions, but immediately responds to an important need many of our customers have,” said David Bailey, Vice President, Corporate Development for BullsEye. “We look forward to working with ANX in expanding the availability of this great product and service.” ANX has been headquartered in Michigan for more than 10 years and continues to expand rapidly, completing four business acquisitions during the last two years. Most recently, the company was awarded the “Best of the Best Michigan Business” by Corp! Magazine in the January/February issue. About ANXeBusiness Inc.

ANXeBusiness Inc. (<http://www.anx.com>), headquartered in Southfield, Mich., has offices in Research Triangle Park, N.C., Overland Park, KS, Philadelphia, PA, Cleveland, OH, San Diego, CA and Toronto. The company offers customers a portfolio of products and services that enable secure collaboration within and between enterprises, based around a deep technical expertise, broad experience with mission-critical data connectivity, a passion for customer support and a proven record of supporting business needs across multiple value chains. ANX is owned by One Equity Partners, an investment division of JP Morgan Chase.
