

## UCaaS

Need to stay in touch and collaborate with employees and customers on the go? BullsEye Telecom's Unified Communications as a Service (UCaaS) solution brings the power and flexibility of our VoIP solutions to any or all of your devices, including smartphones, tablets, and PCs.

Keep your team connected from wherever they're working and increase overall collaboration, productivity, and job satisfaction. UCaaS simplifies multiple communication experiences by bringing them together into one tool that lets you call, message, and meet - from anywhere, on any device.

## The BullsEye Way

Powered by BroadSoft, the market leader in cloud unified communications, BullsEye UCaaS delivers best in-class productivity and cloud collaboration tools. This product can be a stand-alone solution, a way to augment traditional phone service, or an enhancement to our award winning Hosted PBX solution. Our process makes it easy:

1.  
Technical  
design

2.  
Solution for  
your business

3.  
Training and  
startup

4.  
Expert  
support

Our UCaaS experts will design a solution that fits all of your business needs and ensure that your network is UCaaS-ready. Choose between messaging with BullsEye UC or team collaboration with Team-One—whatever fits your business best!

## The BullsEye Difference

Offered as a stand-alone solution or as an enhancement to other BullsEye VoIP solutions

Single-portal access to all of your BullsEye VoIP solutions, including UCaaS

One provider to call—forget dealing with multiple vendors

Plus, when you're ready to upgrade your network to the next level, we can provide a customized migration path to SD-WAN.
