SOLUTION BRIEF

About BullsEye:
Founded in 1999 | 99% customer retention rate | Single source for multiple solutions | One invoice

BUSINESS CONCERN:	SOLUTION:
Are you satisfied with the **service** you're receiving currently? Do you have the bandwidth your business needs, not just for today, but for the next 5-10 years?	We work with you to identify the best solution, with options ranging from DSL to Coax, to high speed fiber connections, as well as wireless and cellular solutions. Any site; any service.
Do you know if all of your internet connections are running as expected?	Circuit monitoring through **SolarWinds** gives us visibility into the health & status of all circuits that use a Static IP; catching issues before they make an impact. Adding **VirtualTech** gathers information & compares against aggregated data to optimize bandwidth performance.
Are you satisfied with the **relationship** you have with your current provider? Is the service provided meeting the needs of your business?	We design solutions uniquely suited to your business' needs, and assign a dedicated Account Manager & support team who are ready to trouble shoot and correct any technical issues.

Solution Highlights

1. **Consultation & Design**
   We align with the customer's vision for quality.

2. **Identify & Deploy**
   We select from hundreds of providers to identify the best options available for each of location.

3. **Support Management**
   We offer expert support & implementation.

4. **Active Monitoring**
   We monitor the status of the customer's circuits and will open a trouble ticket on their behalf.

Additional Benefits

- Automated monitoring & repair

- Proactive trouble ticketing for circuit outages

- No backhauling of important data, avoiding latency

- My BullsEye Account (MBA) portal to pull inventory or request network changes
