

## About BullsEye:

Founded in 1999 | 99% customer retention rate | Single source for multiple solutions | One invoice

| BUSINESS CONCERN:   | SOLUTION:  |
|---|--|
| Is managing the consistency of voice, video conferencing and other communications for both remote and in office users a concern?                | Deploying a UCaaS solution gives all users a single point of entry and unified access to all communication applications, anywhere, any time and on any device.   |
| Do you have a plan for porting all of your POTS lines, video conference & fax lines as well as email servers to your new location(s)?           | UCaaS is a cloud based solution, making the transfer of previous PBX lines as well as all other means of communications as easy and seamlessly scalable as your business needs.  |
| Are you noticing bottlenecks and service delivery slowdown due to the lack of integration between your communication & back end office systems? | BullsEye UCaaS is built on a powerful Broadsoft platform, featuring open APIs with a robust partner ecosystem. This allows for seamless integration and automation between business applications & communication services. |

## Solution Highlights

- Project Management**  
Controlled migration for the seamless transition to a new cloud based communications solution.
- Circuit & Network Remediation**  
Ensuring broadband circuits are able to deliver the highest quality voice, video and data at an outstanding value.
- Expert Installation**  
Fully managed, hands-on installation for a worry-free migration.
- 24/7 Ongoing Troubleshooting & Support**  
Before, during and after the implementation, our dedicated team delivers excellence in customer care.

## Additional Benefits

- Online management for better visibility on all end points
- Mobility to empower your workforce
- Scalable for easy adapting as business changes
- Best-in-class voice & video quality
- Feature-rich to meet all communications needs
- Data redundancy for disaster recovery
- Lower costs to optimize existing resources
