

## About BullsEye:

Founded in 1999 | 99% customer retention rate | Single source for multiple solutions | One invoice

BUSINESS CONCERN:	SOLUTION:
<p>Are you looking for pricing stability instead of the usual fluxuation that comes with traditional phone lines?</p>	<p>With copper decommissioning and the influx of Fiber facilities, the stability of both accessibility and the costs for traditional POTS services is in question. be-LINC provides a simple and stable transition to a solid service at an affordable price.</p>
<p>Are you working to transition all of your voice, Fire, Life &amp; Safety connections away from copper lines but are concerned about minimum seat requirements?</p>	<p>There are NO MINIMUM LINE COUNTS for be-LINC as a POTS Alternative solution! Pricing is the same whether you have 5 seats or 50.</p>
<p>Do you want to move away from all of the regulatory fees but still maintain reliable connectivity?</p>	<p>Regulatory fees can add up to a whopping 32% of the total POTS invoice. Leave all of those additional costs behind by switching to the Cable POTS Alternative of be-LINC*. *standard VoIP fees still apply</p>

## Solution Highlights

- 1. No Minimums or Price Fluxuation**  
Our Cable Co solution has pricing stability nationwide, with no worry of whether or not you meet the minimums for quoted pricing.
- 2. Simple 1-2-3 Conversion -**  
BullsEye manages the entire conversion for an easy transition of your Local Numbers Ported in roughly a few weeks and new number acquisitions even sooner than that.
- 3. Everything is Included -**  
With be-LINC, pricing is inclusive of everything you need: equipment, service, calling, and robust features, all for a single, low, and easy to understand price.

## Additional Benefits

- Future-proof against rising POTS prices and decommissioning lines.
- Keep your well-established business numbers.
- All or some conversion - transition only Fire, Life & Safety lines, only voice lines, only fax lines or all of the above - the price per seat is the same.
